

THE AUXEIRA EVIDENCE INTELLIGENCE FRAMEWORK

Bringing a billion data points online that the world doesn't know exist.

Auxeira delivers evidence, economic analysis and impact intelligence to funders, governments and social sector organisations across Africa — translating complex data into the decisions that change outcomes at scale.

THREE GAPS WE CLOSE. IN A SINGLE ENGAGEMENT.

The Data Gap The most important evidence lives in communities and programme data no one has synthesised. We surface it.	The Translation Gap Strong evidence in the wrong language is invisible. We translate it into the language decision-makers respond to.	The Decision Gap Misallocated resources. Missed policy windows. We build the economic case that turns evidence into action.
---	---	---

HOW WE WORK

01 The Longitudinal Evidence Audit Stakeholder interviews, data mining, financial reconciliation. We build a Sector Intelligence Machine no single organisation could build alone.	02 The Decision-Ready Synthesis Engine AI, behavioural science, actuarial analysis, systems thinking. We find the signal and structure it for the decision-makers who need to act.	03 Knowledge Products That Move Impact reports. Policy briefs. Economic analyses. Practitioner narratives. Designed to drive decisions, not sit in filing cabinets.
--	--	---

WHAT YOU CAN BUY

TIER 1 Evidence Translation For organisations with strong data that is not getting the funding or policy traction it deserves. R85,000 - R150,000 3-6 weeks	TIER 2 Evidence Synthesis & Strategy For organisations with years of data and a story that has never been properly told. R180,000 - R350,000 6-10 weeks	TIER 3 Sector Intelligence Platform Bloomberg terminal for Africa's development economy. For funders and sector bodies serious about scale. By conversation Ongoing retainer
--	--	---

Maximum four active Tier 1/2 engagements at any time. Tier 3 scales independently.

PROOF OF WORK — EARLY CHILDHOOD DEVELOPMENT

We helped change the story of ECD in South Africa. The world noticed.

152,664

Children reached — global funder audiences

14,740

Women-led micro-enterprises surfaced

3.3x

SROI over 5 years — independently verified

\$2M

Skoll Award for Social Innovation 2026

"The Skoll Foundation's \$2M Award recognised the impact — and the evidence narrative that made it visible to a global audience. That is the difference Auxeira makes."

THE AUXEIRA DIFFERENCE

- **Global methodology, African proximity.**
We have been inside the communities, enterprises and evidence bases where your data lives. No global firm can say that.
- **Actuarial rigour.**
Our numbers withstand Treasury scrutiny, boardroom challenge, and international funding review.
- **Built for all 17 SDGs.**
One sector at a time. Until no important decision in Africa is made without the best available evidence.

WHO WE WORK WITH

Foundations & Funders

We make grantee evidence visible to government, co-funders, and the sector.

Impact Organisations & NGOs

We build the evidence narrative that earns the next round and moves policy.

Government & Development Agencies

We build the economic case that stands up in Treasury and before DFIs.

International Philanthropy

We go where you cannot reach and bring back decision-ready intelligence.

Lante Emmanuel Luthuli

Founder & CEO, Auxeira

"I built Auxeira because I watched brilliant organisations do extraordinary work — and watched that work disappear into reports that nobody read. The problem was never the evidence. The problem was always the translation."

Your evidence deserves to move the world.

30 minutes. Free. No pitch. One conversation is all it
